

FME Certified Logos

The FME Certified Professional and FME Certified Trainer logos are available for individuals who successfully complete one or both of these official designations as part of the Safe Software Certification Program. To receive approved package please contact fmecertification@safe.com.

Preferred Usage

FME Certified logo should be placed on a white background.

Minimum Clearance Area

A minimum clearance should be equal to the logo's "E" height on all 4 sides separating it from the other graphic elements and / or messages, as shown here.

Minimum Size

The minimum width of the logo must not be any smaller than .50" (12.7 mm, 70 pixels).

.50" (12.7 mm, 70 pixels)

Unacceptable Logo Usage

Do not manipulate, redraw or change the logo in any way. The following examples illustrate some of the common misuses and do not necessarily represent all of the unacceptable uses of the logo.

Do not draw a border around the logo

Do not change the stroke thickness

Do not distort or rotate

Do not bevel or add a drop shadow

Do not change the colors

Do not remove any parts of the logo and do not change the font
